Module	Basket / Cart
Steps to Reproduce	Remove items or reduce quantity from the basket.
Expected Result	Cart badge should update immediately.
Actual Result	Old cart count remains visible.
Severity	High
Priority	High
Status	Open

Conclusion

- A total of **5 bugs** were identified during the manual testing of the Holland & Barrett website.
- The reported issues are related to **navigation, input validation, cart functionality, and location services**.
- Most of the identified issues affect the **overall user experience** and may lead to confusion during normal website usage.
- These bugs should be reviewed and fixed to improve the **stability, usability, and reliability** of the application.
- After implementing the fixes, **regression testing** is recommended to ensure no new issues are introduced.
